Attachments: Dewey Burdock Comm Strategy Clean Final Draft Sept 29 2016 version 2.doc

If its ok with you, I am fine letting this version go upstairs by noon since I was not planning to incorporate Holly's comments until tomorrow at home (reviewing the AE package now!).

See you downstairs at noon,

Douglas

Sarah: here is what I heard from Holly...fyi.

Also, the version of the draft Q and A I sent Holly below was slightly revised from the version I sent you last night in that I removed the "un" in "unsafe to drink." The attached version now reads consistent with what I highlighted below.

Thanks Holly: it certainly possible I (or Sarah) may have misinterpreted Ron's intentions, etc., but it sounds like whatever language OGWDW is offering can be incorporated into the Comm Strat.

I will take a look at your comments and pay particular attention to any that address the concerns raised on our call with you. As of yesterday, here is an additional draft Q and A we developed that addresses water quality. Let me know what you think...

Thanks Holly. I will be here awhile this afternoon as I am making revisions now to meet a noon deadline tomorrow for the RA.

Also, Sarah let me know that she talked further with Ron today about the future use questions you folks had on the DB AE when we briefed Anita. I heard that you may be sending us some related language to consider?

Hi all,

Just wanted to share this news with you all! Thanks for your support over the years in getting me up to speed on the UIC program. I'm excited to continue working with you in this capacity.

Best,
Holly

Subject: DWPD Management Position Announcements

Hello DWPD Colleagues,

This note is to provide you with two important personnel updates.

I am very pleased to announce that Holly Green, who has been the acting Chief for the Prevention Branch since October 2013, will be the permanent Prevention Branch Chief beginning October 2,

2016. Holly has been managing the Underground Injection Control Program and supporting the Source Water Protection management lead and team. Holly came to DWPD in 2012 as the Associate Branch Chief for Prevention. In that role she managed the Source Water Protection Program and worked on aspects of the Underground Injection Control Program, such as aquifer storage and recovery. Previously, Holly held leadership positions in EPA's national Water Quality Standards Program, focusing on water quality criteria implementation in Clean Water Act programs and national nutrients policy. She also spent three years with the EPA Office of Inspector General. Prior to EPA, Holly served as a Peace Corps Volunteer in Honduras working with communities to build, sustain and protect rural drinking water systems. Holly received a B.A. in Environmental Planning from Binghamton University (State University of New York) and a Master of Environmental Management degree from the Yale School of Forestry and Environmental Studies.

I am also delighted to announce that Michael Plastino will be joining DWPD as the Infrastructure Branch Chief beginning October 2, 2016. Michael joins DWPD from the Office of Environmental Information (OEI) where he was the acting Director of OEI's Technical Architecture & Planning Division, a new division charged with developing and coordinating infrastructure, application and data architecture strategies (e.g. an Agency Cloud Hosting Solutions Strategy) as well as establishing and operating an Agency-wide procurement vehicle and related Working Capital Fund service for Agile development of data systems and applications. Prior to this position, Michael was OEI's Director of the Collection Strategies Division, which led the Agency's Records Management, eDiscovery, FOIA, Docket, Information Collection Rule (ICR), and e-Rulemaking programs. Previously, Michael was in DWPD as the Associate Infrastructure Branch Chief where he provided information systems management and data analyses leadership roles in SDWIS Prime, the Compliance Monitoring Data Portal, SDWIS Fed, SDWIS State, the Drinking Water Mapping Application, the Underground Injection Control Data System, the Aircraft Reporting and Compliance System (ARCS), and the Safe Drinking Water Accession and Review System (SDWARS). Michael received a B.S. in Environmental Resources Engineering from Humboldt State University and a Master of Science in Environmental Resources Engineering from State University of New York Environmental Science and Forestry College.

Please join me in welcoming Holly and Michael to their permanent positions in DWPD!!

Announcements for the other management positions in DWPD will be forthcoming. Stay Tuned!!

Thank you,
Anita
